

KINGSLEY KAPUTO

Master's degree in
Engineering at the University
of Zambia

Kingsley Kaputo is a young engineer from Zambia, born on February 5, 1996 and 27 years of age. He is currently pursuing a master's degree in engineering at the University of Zambia, with a focus on energy studies. Kingsley is also enrolled in a credit-seeking program in energy studies at Moi University in Kenya, where his research is based on clean cooking and improved cooker transitions. Kingsley Kaputo has already established himself as an up-and-coming expert in the field of energy studies. He is passionate about finding sustainable and environmentally friendly solutions to the world's energy needs, and his research in clean cooking technologies is a testament to his dedication to this goal.
